COPYRIGHTED MUSIC

If any copyrighted music is to be played in your booth, you must obtain all necessary licenses from the copyright owner or licensing agency representing the copyright owner. The licensing requirements include the playing of live, as well as recorded music, (records, tapes, compact discs, etc.) and also include music, whether it is the essence of the presentation or is only used as background, on a videotape or other presentation.

The proper license must be posted in your booth and available for inspection at the request of Show Management or properly authorized agents of ASCAP or BMI. We advise you to contact these agencies as listed below to acquire the proper licenses:

--	---

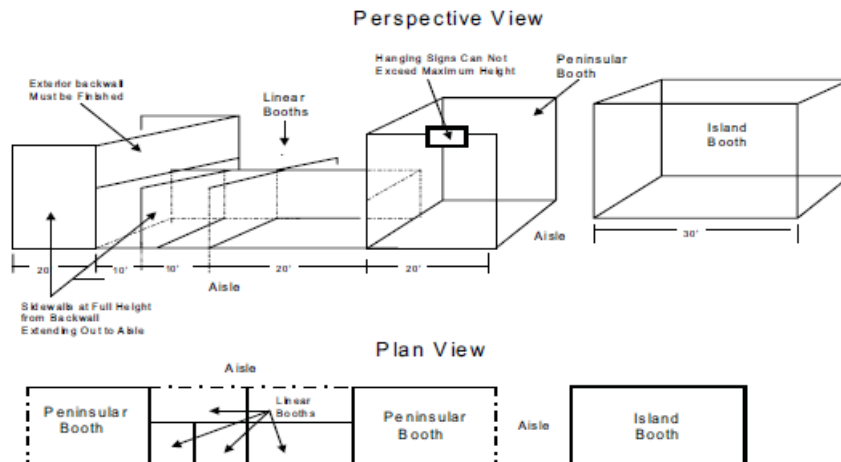

Adherence to these federally mandated copyright licensing laws is of critical importance. Failure to do so is both a violation of federal copyright law, and a breach of your contract for exhibit space for the show.

CRATE REMOVAL, STORAGE AND RETURN

Empty crates, shipping containers, cardboard boxes, etc. marked with **"EMPTY STICKERS"** will be removed to storage and returned to your booth at the end of the show by our floor crew at no additional charge, *provided you have used material handling services for the delivery of your booth*. Do not store merchandise in crates or cartons marked for empty storage or behind booths- this is prohibited due to Fire Regulations in the building. **"EMPTY STICKERS"** can be acquired from the **GES** desk located at the Exhibitor Service Center. Please label your materials as soon as they are ready to be removed. We ask your cooperation in this important matter so that we can clean the aisles and install aisle carpet.

It is the sole responsibility of the exhibitor to adhere to customs and international guidelines.

DEMONSTRATION AREAS

Demonstration areas must be confined within the exhibit space so as not to interfere with any traffic in the aisles. Exhibitors must contract sufficient space to be able to comply with this rule. When large crowds gather to watch a demonstration and interfere with the flow of traffic down the aisles or create excessive crowds at neighboring booths, it is an infringement on the rights of other exhibitors. Aisles may not be obstructed at any time.

The Center does not accept advance shipment of freight or materials prior to the contracted move-in date. All shipments to be delivered to the Center after the official move-in date must be to the attention of the event general decorating contractor. In addition, there are red "hot line" phones located around the facility. These phones ring directly into the Security Control office. Show Management or any uniformed WSCC personnel with a two-way radio can also assist you in an emergency. Contacting Security Control will greatly minimize response time in the event of an emergency medical unit needs to report to the WSCC. GRAPHICS ON NEIGHBORS' SIDE

GREEN INITIATIVES

ECCC is committed to reduce, reuse, and recycle approach to planning and producing our shows. Recycling waste, trash and other paper products and using recycled products are just a few of the steps we have taken toward "green" tradeshow experience.

For example, sending out this Service Manual in a web based format conserves over 150,000 pieces of paper previously used for the 3-ring binder format.

Here are a few examples of what you can do to help the environment:

- Reduce, Reuse, Recycle
- Sign your office up for a recycling program: paper, plastic, cans, etc.
- Develop an online ordering system for your buyers.
- Reduce marketing on paper by opting for more electronic communication, email attendees after the show.
- Design your booth display to last for 5 years or longer using natural fibers.
- Practice Green Purchasing wherever possible by specifying Environmentally Preferable Products (EPP). These products or services contain recycled content, minimize waste, conserve energy or water, and reduce the number of toxics disposed or consumed.
- Reduce packing material by utilizing recyclable materials and take advantage of convention center recycling options for packaging.
- Donate extra amenities or promotional products to local charities rather than shipping them back or tossing them in the trash.

GENERAL SHOW INFORMATION, RULES & REGULATIONS

PAGE 10 OF 19

- Reed Exhibitions has implemented the following programs and purchasing habits in an effort to reduce the amount of waste generated and encourage our clients and vendors to Reduce, Reuse and Recycle whenever possible.
- We have successfully implemented Express Badge on many shows, allowing attendees to print their badge on demand at show site. This process reduces the printing and mailing of unnecessary badges.
- Our offices are set up to recycle paper, plastic, cans.
- We design a show look for a minimum of 3-year lifecycle and recycle graphics for the same period.
- We have reduced paper communications both internally and externally by opting for electronic communication.
- Producing an on-line exhibitor manual reduces our paper consumption by over 150,000 sheets on this show alone.
- Wherever possible we partner with local charities to provide donation opportunities for our exhibitors as a way to “reuse” leftover products and merchandise, thus saving on packing materials and carbon emissions by not shipping home. A great way to “Reuse” material for a good cause.

MATERIAL HANDLING AGREEMENT / SHIPPING INFORMATION

All freight that is to be shipped from the WSCC must be accompanied by a Material Handling Agreement (MHA) unless you have small pieces which you intend to hand carry. All pieces must also be labeled with the booth name and number, as well as destination. Material Handling Agreements may be obtained from **GES** at the Exhibitor Service Center. You must have your exhibit completely dismantled and packed before returning your completed Material Handling Agreement (MHA) to the **GES** Service Desk.

MATERIAL HANDLING (DRAYAGE) SERVICES

GES is the exclusive material handling provider on the exhibit floor. They will receive all shipments whether consigned in advance to their warehouse or sent directly to the WSCC. Material Handling includes return of your empty cartons and crates at the close of the Show. Please refer to the [Vendor Forms & Deadlines](#) section of the online manual for more details. **GES** will maintain a full staff on-site at the Exhibitor Service Center.

NO NAILS OR SCREWS

Nothing may be posted, tacked, nailed, or screwed to columns, walls, floors, or other parts of the building. Any damage or defacement caused by infractions of this rule will be remedied by Show Management at the expense of the rule-breaking exhibitor.

OFFICIAL CONTRACTORS

Please refer to the [Vendor Forms & Deadlines](#) section of the online manual for a detailed list of companies, the services provided and order forms.

Notice To Exhibitors Regarding Non-Official Contractors - Show Management carefully considers the selection of Official Contractors based on quality of service, variety of products, price and reputation. Since these contractors frequently work on more than one show with us, they value the business of our customers and provide quality products and services.

Some companies may misrepresent themselves as being an Official Contractor so please be sure to check the list below or give us a call. Some things to watch for if you are considering the services of a non-official contractor are hidden charges for material handling, labor and shipping that you might not pay otherwise (for example on carpet rental), control over delivery time, availability during move-in and leverage if something goes wrong. Also be advised that non-official contractors will need to abide by the Exhibitor Appointed Contractor (EAC) procedures, provide insurance certificates, etc. in order to gain access to the Show Floor.

OUTBOUND SHIPPING

GES Transportation is the Official Carrier of WSCC. Please refer to the [Vendor Forms & Deadlines](#) section of the online manual for further information and assistance regarding Air Freight, Padded Van Lines, and Common Carrier. **GES Transportation** will maintain a full staff on-site at the Exhibitor Service Center.

PAINTING/BUILDING ALTERATIONS

- Painting any structural part of the WSCC (walls, floor, ceilings, etc.) is prohibited

Event Parking

Washington State Convention Center operates two covered parking garages that adjoin each other and WSCC. Combined, they can accommodate approximately 1490 vehicles. Unlike most downtown parking garages located in the retail and theater district, WSCC parking is located in close proximity to two I-5 exits and is accessible from the eastside of the freeway. One customer commented, "You can park downtown without all the traffic congestion."

WSCC operates a parking system that dramatically improves the speed of exiting the parking garages. The new central cashier and automated express payment machines give customers the choice of friendly customer service from our cashiers or the quick transaction speed of the automated express payment machines.

Payment machines and the cashiers accept major credit cards and cash. WSCC is one of the few parking garages that does not charge higher event rates for big events. Our daily rates are consistently on the low side of rate surveys of surrounding parking garages.

Shoppers and A Contemporary Theatre (ACT) patrons have easy covered access. ACT and the parking garages are connected so there is no need to go out in the weather or wait at street lights. Shoppers can also go from WSCC through a covered corridor that connects to Rainier Tower at Fourth Avenue, without stopping for traffic lights. This route is lined with retail shops.
